Notes: PCCM is primary care case management. MLTSS is managed long-term services and supports. BHO is behavioral health organization. PIHP is prepaid inpatient health plan. PAHP is prepaid ambulatory health plan. Excludes the territories. This exhibit includes Medicaid-expansion CHIP enrollees. Medicaid beneficiaries may be enrolled concurrently in more than one type of managed care program (e.g., a comprehensive plan and a BHO), so the sum of enrollment in each program type as a percentage of total Medicaid enrollment may be greater than 100 percent.

– Dash indicates zero. 0.0% indicates an amount less than 0.05% that rounds to zero.

¹ Includes comprehensive managed care and Programs of All-Inclusive Care for the Elderly (PACE). Comprehensive MCOs cover acute, primary, and specialty medical care services; they may also cover behavioral health, long-term services and supports, and other benefits in some states.

² Florida reported enrollment as of August 1, 2014.

³ Some plans that appear to be limited-benefit plans (dental, BHO, or other managed care) were classified as comprehensive managed care in the CMS report. The values shown here use plan-level information in the CMS report to recategorize enrollment in those limited-benefit plans as BHO, dental, or other managed care.

⁴ The Department of Vermont Health Access, a state agency, acts as Vermont's single MCO entity.
